# RIEDEL SOMMELIERS

## RIEDEL'S CLASSIC

o

The SOMMELIERS series was introduced in 1973 and achieved world-wide recognition as the first variety specific stemware line. A glass was born that turns a sip into a celebration - a wine's best friend - fine-tuned to match the grape.

# RIEDEL VINUM

## RIEDEL'S BENCHMARK

VINUM (1986) became the first machine-made glass in history to be based on the characteristics of grape varietal. VINUM was not developed on a drawing board, but in tasting work shops based on the performance where the content commands the shape. The pleasure of enjoying fine wine starts with the right glass. Machine blown in Austria.

# RIEDEL VINUM EXTREME

DRAMATICALLY DESIGNED FOR NEW WORLD WINES

VINUM EXTREME (2000) was produced to keep up with the New World intense wine structure and steady improvement of these wines. This required a very specific glass to showcase and highlight the special qualities presented in the most perfect wines from the New World. These wines call for shapes which can "deal" with the concentration and translate the wines' message in a perfect way.

## RIEDEL PERFORMANCE

a technologically advanced and user-friendly collection of grape varietal specific glasses. Performance is the first RIEDEL wine glass series ever to feature bowls with a light optic impact. This design not only adds a pleasing visual aspect to the bowl, but also increases the inner surface area, allowing the wine to open up and to fully show every aroma and subtle nuance.

# THE 'O' WINE TUMBLER

## THE ORIGINAL STEMLESS WINE TUMBLER

'O' (2004) is the first varietal specific wine tumbler in history. 'O' is an innovative take on the casual wine glass for total wine enjoyment. 'O' is based on the benchmark shapes of RIEDEL VINUM to enhance the world's most important grape varietals. Broken stems are a thing of the past. In short, 'O' is the ideal glass for everyday use and for every occasion. It is fun, feels good to hold, looks trendy and it works! Machine blown in Austria.

# RIEDEL DECANTERS

"I prefer to decant wines, both young and old. It is a sign of respect for old wines and a sign of confidence in young wines. Decanting old wines, just a few moments before they are served, helps to ensure that the wines' clarity and brilliance are not obscured by any deposit that may have developed over time. Decanting young wines several hours before they are served gives the wine a chance to bloom and attain a stage of development that normally requires years of ageing." ~ Christian Moueix

# RIEDEL CARE GUIDE

One thing you should remember is that fine crystal is a perfectly smooth surface for odours which are particulate, to rest upon, making the glass bowl take on tastes and odours from such things as cardboard storage boxes, soap, chlorine etc. So it is important to ensure that those wonderfully clear glasses are clean and fresh. Smell the glass empty, before use.

***When using a dishwasher do take the following into account:***

- Never soak lead crystal.
- Use a cool wash
- Only wash glass with glass – never plates and cutlery.
- Use a fine particle or better modern gel dishwasher detergent.
- Use a glass protector which is now in many brand of detergent.

***To wash glasses by hand:***

- Wash under warm water, very dilute detergent can be used.
- Place on cloth to dry
- For extra shine, steam over boiling water then use Riedel crystal cloth
- To polish use tea towels and Riedel crystal cloth
- Hold glass by base and polish base
- Use left hand to cradle the bowl and polish bowl with your right hand never twist the base.

# LE NEZ DU VIN

## AROMA KITS

**Le Nez du Vin (Make Scents of Wine) is the ultimate wine education tool. It helps develop the sense of smell and creates a common language to describe, understand and better enjoy wine.**

**We all have a very sensitive sense of smell but practice helps us to recognize and identify the different aromas present in wine. We all enjoy drinking wine but that pleasure is heightened if we are able to appreciate different tastes and assess the wine's richness and complexity.**
