CELLARAX - WINE RACKS

Good wine must be properly stored. It should be racked in a horizontal position in a cool dark place. The corks should be kept wet and the bottles must be easily accessible. It must be possible to identify a wine without moving it in and out of the rack: there is no point in storing wine in absolute tranquility until the moment of service, and then shaking it violently to get it out of its box or off a shelf just before opening it. The various Steelrax™ units solve all the problems of wine storage with an astonishing economy of space.

Steelrax™ units are completely maintenance free. Made of wrought iron, primed and sealed, and coated in a matt black paint, they are aesthetically pleasing, highly functional and amongst the least expensive forms of wine storage considering the accommodation they offer. Steelrax™ units are supplied fully assembled, with wall brackets where necessary, and all struts and supports welded in position. Except for the free-standing back-to-back library unit they should be fixed to the wall by means of plug bolts. They can therefore, be removed in the event of a property being sold, though they will enhance the value of a home by more than their purchase price.
